

Damage Prevention Council of Texas 2024 Sponsorship Packages

About Us

We are a non-profit association dedicated to preventing damage to underground facilities, public safety, and environmental protection through stakeholder education and communication. We promote damage prevention and safe digging practices for underground facilities across Texas.

Who We Are

We are a collective of industry leaders and stakeholders, including contractors, utility operators, pipeline operators, municipalities, utility locators, excavators, engineers, and other industry-focused volunteers.

What We Do

We increase public safety and environmental protection by providing educational outreach such as on-site safety meetings and excavation safety festivals all while continuously seeking damage prevention solutions, focused volunteers.
